

Job Title: Process Technician

Location: Tofoo Co

Department: Technical

Reports to: Process and Training Manager

About Tofoo:

At Tofoo, we are passionate about creating the highest quality tofu and promoting sustainability through every stage of our production process. We are a dynamic, forward-thinking company, always looking for innovative ways to improve and grow.

Position Overview:

We are looking for a Process Technician to join our Technical department. You will play a key role in process mapping, establishing control points, and helping to develop new processes and technologies to support the continued growth of Tofoo's high-quality tofu products.

Key Responsibilities:

- Assist in process mapping and documenting current production processes to identify opportunities for improvement.
- Establish and monitor process control points to ensure product quality and consistency across all production stages.
- Collaborate with the NPD (New Product Development) and production teams in developing new processes, technologies, and equipment for the manufacture of tofu. Setup of trials, sample and data collection pre-trial and post-trial meetings.
- Support the identification and implementation of new technologies aimed at improving production efficiency and product quality.
- Participate in troubleshooting and continuous improvement initiatives, helping to resolve any process-related challenges.
- Assist in gathering and analysing data to track process performance and provide recommendations for improvements.
- Support the establishment of Standard Operating Procedures (SOPs) and manufacturing specifications to ensure consistency and quality across the production process.
- Work closely with the Quality Control team to ensure all process parameters align with industry standards and regulatory requirements.
- Contribute to ongoing training and knowledge sharing within the team to improve overall process understanding and capabilities.

Key Skills & Qualifications:

- A degree in Food Science, Engineering, Chemistry, or experience in Food Manufacturing.
- Strong analytical and problem-solving skills, with the ability to identify process inefficiencies and propose effective solutions.
- A keen interest in food production, particularly in sustainable practices and the tofu manufacturing process.
- Excellent communication and teamwork skills, with the ability to collaborate effectively across departments.
- A proactive and detail-oriented approach, with a strong desire to learn and develop new skills.
- Familiarity with process control, quality management, or continuous improvement methodologies is a plus, but not essential.
- Understanding of Lean Six Sigma principles is desirable for continuous improvement and process optimization.

Why Tofoo?

- Opportunity to work in a dynamic, growth-focused environment.
- Gain hands-on experience in the food manufacturing industry with a focus on process innovation.

- Collaborative team culture where your contributions will be valued.
- Support for career development and progression within the company.

If you're motivated and eager to make an impact in the food industry and contribute to the development of high-quality tofu, we'd love to hear from you!
